1964-66	President, Student Research Association (Linguistics), School of Languages and Literatures, Moscow State University, U.S.S.R.

Curriculum Development

2009	FOS (lately, Major) Ph. D. in Information Security
2006	AOS Ph.D. in Information Security
2005	Proposal for the Ph.D. in Information Security
2004	FOS for M.S. in Information Security
2003	CNSS (NSTISSI) National Standards 4012 and 4013 certification for

	the M.S. in Information Security Program, National Security Agency
1998-2000	M.S. in Information Security, Purdue University
1998-2000	B.A. in Jewish Studies, Purdue University
1994-95	Revision of M.A. in English, Purdue University
1990-95	Establishment, Graduate Interdepartmental Program in Linguistics, Purdue University (final approval granted by the State Commission of Higher Education, September 1995)
1992-94	Revision of Ph.D. in English, Purdue University
1987-88	Revision of Graduate Programs in English Linguistics (Ph.D. and M.A.)
1980-81	Establishment, Interdisciplinary Program in Jewish Studies (minor), Purdue University
1979-80	Establishment, Interdepartmental Program in Linguistics (major), Purdue University
1978-79	Establishment, Graduate Field in Rhetoric and Composition, Purdue University
1974-75	Revision, Program in Russian and Slavic Studies (Linguistics and Literature), Hebrew University, Jerusalem, Israel
1966-68	Revised curriculum, Department of Structural and Computational Linguistics, Moscow State University, U.S.S.R.

PUBLICATIONS

Books

Solely Authored Books

K teorii yazykovykh podsistem /Towards a Theory of Linguistic Subsystems/ (420 pp.), Moscow, USSR: Moscow University Press, 1971. 2nd Ed., with a new preface, Moscow, Russia: URSS KomKniga, 2007

Semantic Mechanisms of Humor (302 pp.), Dordrecht - Boston - Lancaster: D. Reidel, 1985

Semantics of Lying (400 pp., originally committed to D. Reidel, now apparently Elsevier, scheduled 2011)

Semantics of Sophistication (270 pp., in preparation, solicited by several publishers, scheduled 2012)

Co-authored Books

Metody semanticheskogo issledovaniya ogranichennogo pod''yazyka /Methods of Semantic Investigation of a Restricted Sublanguage/ (414 pp.), Moscow University Press, 1971 (with B. Gorodetsky)

Slovari slovosochetaniy i chastotnye slovari slov ogranichennogo pod''yazyka /Dictionaries of Word Combinations and Dictionaries of Words with Frequencies of a Restricted Sublanguage/ (538 pp.), Moscow University Press, 1972 (with B. Y. Gorodetsky, A. E. Kibrik, L. S. Logakhina, G. V., Maksimova, and E. S. Prytkov)

200 zadach po yazykovedeniyu i matematike /200 Problems in Linguistics and Mathematics/ (252 pp.), Moscow University Press, 1972 (with B. Gorodetsky)

Produktivnoe slovoslozhenie v shugnanskom, vengerskom, saamskom, khinalug skom i lezginskom yazykakh: Rezultaty polevoy lingvistiki /Productive Word Compounding in Shugnan, Hungarian, Saami, Hinalug, and Lezghin: Field Linguistics Results (678 pp.). Moscow: Moscow University Press, 1974 (with B. Gorodetsky--the book was confiscated and the run, apparently, destroyed after and because of Raskin's emigration in 1973; widely distributed, used in classrooms, and quoted in Ms.)

Language and Writing: Applications of Linguistics to Rhetoric and Composition (279 pp.), Norwood, NJ: Ablex, 1987 (with I. H. Weiser)

Ontological Semantics (420 pp.). Cambridge, MA: MIT Press, 2004 (with S. Nirenburg)

Ontological Semantics Technology (350 pp. in preparation, tentatively committed to Morgan Kaufmann, Scheduled 2011, with J. M. Taylor, C. F. Hempelmann, and M. S. Petrenko)_

Discourse and cohesion in expository text (14 pp.), in: **Proceedings of the 11th International Conference on Computational Linguistics - COLING '86**. Bonn, W. Germany: University of Bonn, 1986 (with A. Tucker and S. Nirenburg)

A metric for computational analysis of meaning: Toward an applied theory of linguistic semantics (14 pp.), in: *ibid* (with S. Nirenburg)

On knowledge-based machine translation (28 pp.), in: *ibid* (with S. Nirenburg and A. Tucker)

World Humor Research Movement (4 pp.), in: D. L. F. Nilsen (ed.), **Proceedings of WHIM-V**. Tempe, AZ: Arizona State University, 1987

Dealing with space in natural language processing (10 pp.), in: A. Kak and S. Chen (eds.), **Spatial Reasoning and Multi-Sensor Fusion. Proceedings of the 1987 Workshop**. Los Altos, CA: Morgan Kaufmann (with S. Nirenburg)

What is there in linguistic semantics for natural language processing? in: S. Nirenburg (ed.), **Planning for Future Research: Directions for the Next Decade. Proceedings of the Natural Language Planning Workshop**. Blue Mountain Lake, N.Y.: NAIC, 1987

Intelligence - human and artificial - and humor (4 pp.), in: D. L. F. Nilsen (ed.), **WHIMSY VI**, Tempe, AZ: Arizona State University, 1988

Sophisticated jokes (6 pp.), in: S. F. D. Hughes and V. Raskin (eds.), **WHIMSY-VII, Proceedings of the Seventh National Conference on Humor**, West Lafayette, IN: Purdue University, 1990

Combining natural language with direct manipulation: A conceptual framework for a hybrid human-computer interface (8 pp.), in: K.-H. Hanne and R. Mayer (eds.), **Proceedings of the 1991 International Conference on Human-Computer Interaction**. Amsterdam: Elsevier (in press) (with Shinji Agou and Gavriel Salvendy)

The SMEARR semantic database: An intelligent and versatile resource for the humanities (8 pp.). In: D. Ross and D. Brink (eds.), **Making Connections, the ACH/ALLC '91 Conference Handbook**. Tempe, AZ: Arizona State University, 1991 (with S. Attardo and D. H. Attardo)

Using the powers of language: Non-casual language in advertising, politics, relationships, humor, and lying (32 pp.). In: Elray L. Pedersen (ed.), **Proceedings of the 1992 Annual Meeting of the Deseret Language and Linguistic Society**. Provo, UT: Brigham Young University

Humor as a non-*bona-fide* mode of communication (12 pp.). In: Elray L. Pedersen (ed.), **Proceedings of the 1992 Annual Meeting of the Deseret Language and Linguistic Society**. Provo, UT: Brigham Young University

Meaning, truth, and the sense of humor (22 pp.). In: Alan Harris and Salvatore Attardo (eds.), **Selected Proceedings of the Seminar on Humor and Communication, 1992 Annual Meeting, Speech Communication Association.** Chicago: SCA, 1992

Internal and external intelligent interaction in complex decision systems (14 pp.). In: Opher Etzion and Arie Segev (eds.), **NGITS '93 Workshop. Proceedings of the 1993 Meeting on New Generation Information and Technology Systems**. Haifa, Israel: Technion-Israel Institute of Technology, 1993 (with Shimon Nof)

Apologiae ontologiae (22 pp.), in: Judith Klavans, Bran Boguraev, Lori Levin, and James Pustejovsky (eds.), **Symposium: Representation and Acquisition of Lexical Knowledge: Polysemy, Ambiguity, and Generativity. Working Notes**, AAAI Spring Symposium Series, Stanford, CA: Stanford University (with Sergei Nirenburg and Boyan Onyshkevych). Shortened version reprinted in: **TMI '95: Proceedings of the Sixth International Conference on Theoretical and Methodological Issues in Machine Translation,** Centre for Computational Linguistics, Catholic Universities Leuven, Belgium

Technological and conceptual tools for lexical knowledge acquisition (24 pp.), in: **Proceedings of AAAI '96** (forthcoming, with Sergei Nirenburg, Kavi Mahesh, Evelyne Viegas, Steve Beale, and Boyan Onyshkevych). A version reprinted in: **Proceedings of DIALOGUE '96 International Conference on Computational Linguistics and Its Applications**, Russian Institute of Artificial Intelligence, Moscow, Russia, May 1996

Lexicons in the MikroKosmos project (22 pp.), in: **Proceedings of AISB '96 Annual Conference on Artificial Intelligence and Simulation of Behavior**, Brighton, England, June 1996 (with Sergei Nirenburg, Steve Beale, Kavi Mahesh, Boyan Onyshkevych, Evelyne Viegas, Yorick Wilks, and Remi Zajac)

From *submit* to *submitted* via *submission*: Lexical rules and large-scale lexicon acquisition (30 pp.), in: **Proceedings of ACL '96, 1996 Annual Meeting of the Association of Computational Linguistics**, San Diego, CA, June 1996 (with Evelyne Viegas, Boyan Onyshkevych, and Sergei Nirenburg)

Adjectival modification in text meaning representation (21 pp.), in: **Proceedings of COLING '96, 1996 International Conference in Computational Linguistics**, Leuven, Belgium, July-August 1996 (with Sergei Nirenburg)

Lexical rules for deverbal adjectives" (32 pp.). In: Evelyne Viegas *et al*. (eds.), **Breadth and Depth of Semantic Lexicons. Proceedings of a Workshop Sponsored by the Special Interest Group on the Lexicon of the Association for Computational Linguistics.** Santa Cruz, CA: Association for Computational Linguistics, June 1996 (with Sergei Nirenburg)

Computer implementation of the general theory of verbal humor. In: Joos Hulstijn and Anton Nijholt (eds.), **Automatic Interpretation and Generation of Verbal Humor. International Workshop on Computational Humor, IWCH '96. Twente Workshop on Language Technology, TWLT 12**. Enschede, NL: University of Twente, pp. 9--19.

Word sense disambiguation: Why statistics when you have these numbers? (16 pp.). In: Sergei Nirenburg et al. (eds.), **TMI '97: Proceedings of the Seventh International Conference on Theoretical and Methodological Issues in Machine Translation**, Santa Fe, N.M., July 1997 (with Kavi Mahesh, Sergei Nirenburg, Stephen Beale, Evelyne Viegas, and Boyan Onyshkevych)

Universal grammar and lexis for quick ramp-up of MT systems (14 pp.). In: **COLING-ACL '98. 36th Annual Meeting of the Association for Computational Linguistics and 17th International Conference on Computational Linguistics. Proceedings of the Conference**. University of Montreal, Montreal, Canada, August 1998

Natural language processing for information assurance and security: An overview and implementations (28 pp.). In: Marvin Shaeffer (ed.), **Proceedings. New Security Paradigm Workshop, September 18th-22nd, 2000. Ballycotton, County Cork, Ireland**. New York, NY: ACM Press, 2001 (with Mikhail J. Atallah, Craig J. McDonough, and Sergei Nirenburg)

Automating acquisition in ontological semantics" (16 pp). In: **Proceedings of ESSLI 2001**, Helsinki: University of Helsinki, 2001 (with Sergei Nirenburg)

Computational humor and ontological semantics (30 pp.). In: Oliviero Stock, Carlo Strapparava, and Anton Nijholt (eds.), **The April Fools' Day Workshop on Computational Humor. TWLT 20: Twente Workshop on Language Technology, An Initiative of HAHAcronym, European Project IST-2000-30039**, ITC-irst, Trento, Italy

Ontology in information security: A useful theoretical foundation and methodological tool (14 pp.) In: Victor Raskin and Christian F. Hempelmann (eds.), **Proceedings: New Security Paradigms Workshop 2001**. New York: ACM Press, 2002 (with Sergei Nirenburg, Christian F. Hempelmann, and Katrina E. Triezenberg)

Why NLP should move into IAS? (14 pp.). In Steven Krauwer (ed.), **Proceedings of the Workshop on a Roadmap for Computational Linguistics at COLING 2002: 19th International Conference**

on Computational Linguistics, Taipei University, Taipei, Taiwan, August 2002 (with Sergei Nirenburg, Mikhail J. Atallah, C.hristian F. Hempelmann, and Katrina E.Triezenberg)

New developments in ontological semantics (20 pp.). **Proceedings of the Third International Confer ence on Language Resources and Evaluation (LREC 2002). Las Palmas de Gran Canaria, Spain. May 29-31, 2002** (with Antonio Moreno Ortiz and Sergei Nirenburg)

The educational mission of CERIAS: Multidisciplinary information assurance and security from cradle and grave (13 pp.). In: **Proceedings of the Fifth NSTAC R&D Exchange Meeting**. Atlanta, GA: Georgia Tech, March 14, 2003 (with Melissa Dark and Eugene H. Spafford)

Levels of sophistication in humor intelligence agents (8 pp.). In: Anton Nijholt (ed.), **Proceedings of the Humor Interface Workshop at CHI-2003: Computer Humor Interface Conference. Fort Lauderdale, FL, April 6, 2003**. Einschede: University of Twente (with Katrina E. Triezenberg)

Ontological semantics I: Theoretical and philosophical aspects (48 pp.). In: Barry Smith (ed.), **Proceedings of the Workshop on Semantic Ontology-Ontological Semantics, Leipzig, Germany, May 23-25, 2003**. Leipzig: University of Leipzig and DFG/IFOMIS (with Sergei Nirenburg)

Ontological semantics II: Descriptive and application-oriented aspects (46 pp.). In: Barry Smith (ed.), **Proceedings of the Workshop on Semantic Ontology-Ontological Semantics, Leipzig, Germany, May 23-25, 2003**. Leipzig: University of Leipzig and DFG/IFOMIS (with Sergei Nirenburg)

The genesis of a script for bankruptcy in ontological semantics (49 pp.). In: G. Hirst and S. Nirenburg (eds.), **Proceedings of the Text Meaning Workshop, HLT/NAACL 2003: Human Language Technology and North American Chapter of the Association of Computational Linguistics Conference**. ACL: Edmonton, Alberta, Canada, May 31, 2003 (with Sergei Nirenburg, Inna Nirenburg, Christian F. Hempelmann, and Katrina E. Triezenberg)

The Purdue Ontological Semantic Project (15 pp.). In: Damir Cavar and Paul Rodriguez (eds.), **Proceedings of the First Annual Midwest Colloquium in Computational Linguistics, Indiana University, Bloomington, IN, June 25-26, 2004** (with Krista Bennett, Christian F. Hempelmann, Evguenia Malaya, Dina Mohamed, and Katrina E. Triezenberg)

Semantic forensics: An application of ontological semantics to information assurance. Rough draft in: ibid. Revised draft in: Graeme Hirst and Sergei Nirenburg (eds.), **Proceedings of the Second Workshop on Text Meaning and Interpretation, ACL, Barcelona, Spain, July 25-26, 2004** (with Christian F. Hempelmann and Katrina E. Triezenberg)

Ontological semantic support for a specific domain. In: **Proceedings of the Second Annual Midwest Colloquium in Computational Linguistics**, Columbus, OH: Ohio State University (with K. E. Triezenberg, E. Malaia, and O. Krachina).

The how's and why's of ontological semantics. In: I. M. Kobozeva, A. S. Narinyani, and V. P. Selegei (eds.), **Computer Linguistics and Intellectual Technologies: Proceedings of the International Conference "Dialog 2005."** Zvenigorod, June 1-6, 2005. Moscow: Nauka, 2005

The User Non-Acceptance Paradigm: INFOSEC's Dirty Little Secret. In: Victor Raskin and Christian F. Hempelmann (eds.), **Proceedings: New Security Paradigms Workshop 2004. September 20-23, White Beach Resort, Halifax, Canada**. New York: ACM Press, 2005 (with Steven Greenwald, Kenneth Olthoff, and Willibald Ruch

Computer, Tell Me a Joke ... but Please Make it Funny: Computational Humor with Ontological   Semantics." In: G. Sutcliffe and R. Goebel (eds.), **Proceedings of the 19ᵗʰ FLAIRS Conference**,   Melbourne Beach, FL: Florida Institute of Technology, 2006 (with C. F. Hempelmann and K. E.   Triezenberg)

The why's and how's of ontological semantics. In: N. I. Laufer, A. S. Narin'ani, and V. P. Selegeya (eds.), **Computational Linguistics and Intellectual Technologies. Proceedings of an International Conference "Dialogue 2006,"** Moscow: Russian Humanties University Press, 2006

Multiword Expressions in Ontological Semantic Lexicons. In: J. Spartz (ed.), **Proceedings of the Fourth Annual Midwest Computational Linguistics Colloquium (MCLC-4)**, W. Lafayette, IN: Purdue University, 2007 (with C. E. Hempelmann, K. E. Triezenberg, R. C. Berkan, and C. Gates)

Reconciling Privacy Policies and Regulations: Ontological Semantics Perspective. In: M.J. Smith, G. Salvendy (eds.), Human Interface, Part II, HCII 2007, LNCS 4558, Berlin-Heidelberg: Springer-Verlag, 2007 (with Olga Krachina and Katrina E. Triezenberg)

Developing Ontologies for Engineering Information Retrieval. In: **Proceedings of the 2007 American**

Society of Mechanical Engineers International Design Engineering Technical Conferences and Computers in Engineering Conference (IDETC/CIE 2007), Las Vegas, NE: ASME, 2007 (with Zhanjun Li and Karthik Ramani)

Semantic search: Content Vs. formalism (5.850 words). In: **Proceedings of LangTech 2008**, Rome, Italy, http://www.langtech.it/en/technical_program/technical_program.htm (full paper, with C. F. Hempelmann)

Modeling Abduction Within Ontological Semantics (2,500 wors). In: John T. Hale (ed.), **Proceedings of the Fifth Annual Midwest Computational Linguistics Colloquium (MCLC-5),** East Lansing, MI: Michigan State University, May 2008 (with Maxim S. Petrenko)

Accessing and manipulating meaning of textual and data information for information assurance and security and intelligence (4,000 words). In: Frederick Sheldon (ed.), **Proceedings of the Fourth Cyber Security and Information Intelligence Research Worrkshop (CSIIRW '08)**, Oak Ridge, TN: ORNL, ACM Digital Library, May 2008 (with Brian Buck, Arthur Keen, Christian Hempelmann, and Katrina Triezenberg)

The (Not So) Unbearable Fuzziness of Natural Language: The Ontological Semantic Way of Computing With Words (3,000 words). In: **Proceedings of the 28th International Conference of the North American Fuzzy Information Processing Society**, Cincinnati, USA, June 2009 (with J. M. Taylor)

Multiple Noun Expression Analysis (3,500 words): An Implementation of Ontological Semantic Technology, *Computational Linguistics – Applications Workshop*, Wisla, Poland, October 2010 (with J. M. Taylor, M. S. Petrenko, and C. F. Hempelmann)

An Unintentional Inference and Ontological Property Defaults (3,000 words), *International Conference on Systems, Man and Cybernetics,* Istanbul, Turkey, October 2010 (with J. M. Taylor, M. S. Petrenko, C. F. Hempelmann, and S. Attardo)

Ontological Semantic Technology for Detecting Insider Threat and Social Engineering (5,000 words), *New Security Paradigms Workshop*, Concord, MA, September 2010 (with J. M. Taylor and C. F. Hempelmann)

Fuzzy Ontology for Natural Language (3,000 words), 29th *International Conference of the North American Fuzzy Information Processing Society,* Toronto, Canada, July 2010 (with J. M. Taylor)

Computing the Meaning of Number Expressions in English: The Common Case (3,000 words), Intelligent Linguistic Technologies Workshop, *International Conference on Artificial Intelligence,* Las Vegas, NE, July 2010 (with J. M. Taylor, C. F. Hempelmann, and W. R. Vandiver)

On an Automatic Acquisition Toolbox for Ontologies and Lexicons in Ontological Semantics (3,000 words), *International Conference on Artificial Intelligence,* Las Vegas, NE, July 2010 (with J. M. Taylor and C. F. Hempelmann)

Application-guided Ontological Engineering (3,000 words), *International Conference on Artificial Intelligence,* Las Vegas, NE, July 2010 (with J. M. Taylor and C. F. Hempelmann)

Guessing vs. Knowing: The Two Approaches to Semantics in Natural Language Processing (5,000 words), *Annual International Conference Dialogue 2010*, Moscow, Russia, May 2010 (with J. M. Taylor and C. F. Hempelmann)

Human and Computer Humor Collaboration: What Can Computational Analysis of Humor Reveal, *SDPS Conference,* Jeju Island, South Korea, June 2011 (with J. M. Taylor)

Understanding the Unknown: Unattested Input Processing in Natural Language, *FUZZ-IEEE Conference,* Taipei, Taiwan, June 2011 (with J. M. Taylor)

Post-Logical Verification of Ontology and Lexicons: The Ontological Semantic Technology Approach, *International Conference on Artificial Intelligence,* Las Vegas, NE, July 2011 (with J. M. Taylor and C. F. Hempelmann)

Graph Decomposition and Its Use for Ontology Verification and Semantic Representation, Intelligent Linguistic Technologies Workshop, *International Conference on Artificial Intelligence,* Las Vegas, NE, July 2011 (with J. M Taylor)

Towards Computational Guessing of Unknown Word Meanings: The Ontological Semantic Approach, *Cognitive Science Conference,* Boston, MA, July 2011 (with J. M. Taylor and C. F. Hempelmann)

From Disambiguation Failures to Common-Sense Knowledge Acquisition: A Day in the Life of an Ontological Semantic System," *Web Iintelligence Conference,* Lyon, France, August 2011 (with J. M. Taylor and C. F. Hempelmann)

Software

Patents

Ontological Semantic Technologies for Search Engines, 2010
Natural Language Watermarking, 2001 (provisional patent, with M. Atallah)

Databases

Computer Ontology: Contains over 700 leaves of the *isa* hierarchy pertaining to the computer domain. Implemented with the help of ONTOS 1.0 in the IBM RT PC environment (with A. Gast, K. Kuehl, and W. Lau), 1988

Analysis Lexicon: Contains over 1,400 entries. Each entry corresponds to a leaf from the Computer Ontology or to an entry from the SMEARR database and is an unenhanced slot-and-filler ILT meaning representation. Implemented with the help of ONTOS 1.0 in the IBM RT PC environment (with S. Attardo and D. H. Attardo), 1989

Linguistic Semantic Descriptions Database: Contains around 450 high-quality descriptions resulting from scanning over 600 first-string writings in post-1960 linguistic semantics. Each entry contains the cited description and complete bibliographic data. An ASCII file on UNIX and a FrameKit-based data base implemented on the TI Explorer II (with S. Attardo, D. H. Attardo, and M. Stede), 1990

SMEARR Data Base: Contains over 700 transposed, enriched, and augmented parsing-ready semantic entries in an event-structure enhanced slot-and-filler representation language. Implemented in the TI Explorer II environment (with S. Attardo and D. H. Attardo), 1990

Linguistic Problems and Exercises Corpus: Contains over 4,000 exercises from published sources in English, French, and Russian. A family of cross-references database-formatted UNIX files implemented in the NeXT environment (with D. H. Attardo and A. Djelal), 1990

English Adjective Lexicon: Contains over 6,000 entries from the intersection of LDOCE and WSJ '87-'89, implemented in Sun Solaris/Motif environment, 1994-95

Spanish Lexicon on Mergers and Acquisitions: Contains over 4,000 entries from the WHO/Latin America corpus, implemented in Sun Solaris/Motif environment (with Sergei Nirenburg and Evelyne Viegas), 1995

Knowledge-Based Acquisition Editor: Contains 9,000 ontological concepts, 40,000 English lexical entries, 40,000 Spanish lexical entries, and Russian, Chinese, and Arabic lexical entries. Implemented in C++ on the Windows environment with a web interface http://kbae.cerias.purdue.edu:443/, userid guest, password guest, no editing privileges (with S. Nirenburg, K. Mahesh, S. Sheremetyeva, C. F. Hempelmann, and K. E. Triezenberg)

Software

SMEARR System: Contains the following components: LD, lexical database (= SMEARR Data Base as described above); ONTOS-F, an interactive lexical acquisition tool; LDBMS, lexical database management system; NLI, natural language interface for LDBMS; MT, a limited ILT--->English machine translation module; HELP, online help documentation; TUTOR, an online tutorial.

Implemented in the IBM RT PC and Explorer II environments and ported in part to the NeXT and Macintosh II environments (with D. H. Attardo, S. Attardo, A. Gast, K. Kuehl, and M. Stede), 1988-91

Linguistics Online: Online tutorials for course work in the core areas of linguistics. Part 3: Semantics and Pragmatics (with H. Bickel and R. Lindgren), 1989-1991

Lexical Acquisition Graphic Tool Library, implemented in Sun Solaris/Motif environment (with Evelyne Viegas), 1994-96

Sing-A-Password jingles: Mnemonic software for strong passwords, implemented in Visual Basic/Windows platform (with Craig J. McDonough), Version Beta 2,1999

Named Research Problems:

Two new research problems are often written up on and referred to as the Raskin Problem (more correctly, the Raskin Problem 1, or Raskin-1, and the Raskin Problem 2, or Raskin-2). Both problems are autobiographical in the sense that they stem from Raskin's first- or second-hand experience with languages and his field observations.

Raskin-1 is the question why a near-native fluency in a language is much more adversely affected by the acoustic noise in the channel than a native fluency, even if inactive as dormant. It has been researched in depth, after its formulation, by the late Thomas "Ron" Hoffman of the University of Nagoya. Raskin's hypothesis is that native ability includes more built-in redundancy.

Raskin-2 is the question why a native speaking and typically bilingual child of non-native-speaking parents of the same foreign-language background neither inherits the parents' foreign accent nor acquires the local accent but

rather speaks a native no-dialect dialect of the dominant language. The issue has been tested on a few dozen such children in an international survey on the LINGUIST computer list and discussed extensively on the Internet, where a special site has been spotted for the problem at Bolt, Beranek, and Newman in Boston, MA. Raskin's own hypothesis is that an unknown but highly structured mechanism of mutual neutralization of conflicting language-interference pressures applies here and strips the child's dialect of any regional and social peculiarity, thus creating the sterile, native, from-nowhere dialect.
