

Lecture 14 – 09/30/2015

Pages (208 – 226)

- Example 3.8
- Determination of Fourier Series Coefficients for Discrete-Time Periodic Signals
 - Equations 3.94, 3.95
 - Example 3.10
- Properties of Discrete-Time Fourier Series
 - Frequency Shifting
 - Periodic Convolution
 - Multiplication
 - First Difference
 - Parseval's Relation
- Example 3.13 – 3.15 (as time permits)
