

How to Write a Successful Thesis Statement

Step 1: Your Subject Matter:

Ex: We must stop deforestation of our rainforests in Africa and South America.

Step 2: Raise a Question or Problem:

Ex: Deforestation of the rainforests in Africa and South America leads to decreased oxygen production, because those areas are responsible for a large amount of our planet's oxygen supply.

Step 3: Answer the Question or Solve the Problem:

Ex: Recycling paper and wood products would help decrease lumber consumption of rainforest areas in Africa and South America, which produce a large portion of the world's oxygen supply.

Step 4: Establish Your Purpose:

Ex: It is in everyone's best interest to preserve the rainforests of Africa and South America, which produce a very large portion of the planet's oxygen supply; this is why we must all do our part in recycling wood and paper products in a combined effort to minimize the consumption of tropical trees.
