

Grading Guidelines

- 80% creative work/assignments: I will look specifically at the idea behind your assignment work. Every project starts with a good idea or concept. The best ideas are often simple – without being simple-minded! Project work resulting from these ideas needs to be consistent, precise and on the point. Some of the questions I use to evaluate your work are: How original is the idea behind the work? How precise is realization of this idea? Was the student well motivated and did he/she present the idea clearly in class?

Assignment Breakdown:

Written assignment	15%
Assignment 01	10%
Assignment 02	15%
Assignment 03	20%
Assignment 04	20%

- 20% portfolio / documentation: your portfolio / documentation website needs to be complete and precise. I will look at the quality of the written and visual part and the overall appearance as well as the website's navigation interface.

Remember that your class attendance has an effect on your overall grade – unexcused absences result in a significant reduction of the final grade!

I always try to give detailed feedback about your performance and the quality of your work together with the grade after each assignment. This should give you a feeling for the points that are important – in a good presentation, project or research.
