## Local Resources for Electronic Parts

Thanks to Sumanth here is an excellent addition to our first list of parts suppliers (such as Radioshack, Jameco, Digikey, Acroname and SparkFun)

Local Resources:

- Purdue University, Electrical Engineering Building (EE) room 162
- Purdue Surplus, <http://www.purdue.edu/surplus/generalpublic.htm>  
(Sumanth says about Purdue Surplus: "I've spent a few hours with a soldering iron collecting inductors, capacitors, ribbon cables, and all sorts of connectors, for free").
- Fry's Electronics in Indianapolis

Further web resources, mainly bulk and surplus electronic parts:

- <http://www.goldmine-elec.com/>
- <http://www.allelectronics.com/>
- <http://www.electronic surplus.com/>
