765-496-2620 (w)

765-496-7434 (f)

Education

Ph.D. Industrial Engineering, University of Illinois at Urbana-Champaign, August 2001
Thesis: Mixed Integer Nonlinear Programs: Theory, Algorithms and Applications

M.S. Industrial Engineering, University of Illinois at Urbana-Champaign, May 1997
Thesis: Multistage Network Optimization and Decomposition Algorithms

B.Tech. Mechanical Engineering, Indian Institute of Technology, May 1993
Thesis: Feature Extraction in Turned Components

Academic/Professional Appointments

Allison and Nancy Schleicher Chair of Management, Purdue University, July 2014 - present

Professor, Purdue University, August 2012 - present

Associate Professor, Purdue University, August 2006 - August 2012

Assistant Professor, Purdue University, August 2001 - August 2006

Software Engineer, ComputerVision, India, January 1995 - July 1995

Graduate Engineer, TELCO (Tata Engineering and Locomotive Company), India, July 1993 - December 1994

Research Interests

Mathematical Programming, Complexity and Approximation, Symbolic Computing. Research emphasis is on global optimization theory, algorithms and software. Applications and models in business, economics, systems, engineering design, and molecular design are of particular interest.

Teaching Interests

Deterministic and Stochastic Operations Research, Mathematical Programming, Global Optimization, Convex Optimization, Applied Probability and Statistics, Quantitative Analysis, Spreadsheet Modeling and Decision Analysis, Optimization Models.

Book

Tawarmalani, M. and N. V. Sahinidis, Convexification and Global Optimization in Continuous and Mixed-Integer Nonlinear Programming: Theory, Algorithms, Software and Applications, 504 pages, Kluwer Academic Publishers, 2002.

Journal Publications

1. G. M. Ramapriya, M. Tawarmalani, R. Agrawal, A systematic method to synthesize all dividing wall columns for n-component separation: Part II. *AIChE Journal*, 64-2, 660-672, 2018.
2. G. M. Ramapriya, M. Tawarmalani, R. Agrawal, A systematic method to synthesize all dividing wall columns for n-component separation: Part I. *AIChE Journal*, 64-2, 649-659, 2018.
3. Wu, J., M. Tawarmalani, and K. Kannan, Cardinality bundling with Spence-Mirrlees Reservation Prices, *Management Science*, accepted.
4. Davarnia, D., J.-P. P. Richard, and M. Tawarmalani, Simultaneous convexification of bilinear functions over polytopes with applications to network interdiction, *SIAM Journal on Optimization*, conditionally accepted.

Software

- Co-authored BARON (Branch and Reduce Optimization Navigator) for global optimization of mixed-integer nonlinear programs
- Data Reduction subroutine (Merge) for CADD5

Honors

- Runner-up, Salgo Noren Foundation Award for Excellence in Teaching, Krannert School of Management, 2009, 2011, 2016
- 2006 Beale-Orchard-Hays prize (with N. V. Sahinidis) for the paper “A polyhedral branch-and-cut approach to global optimization”
- Krannert Faculty Fellow, 2006
- Best Paper Award (with K. Kannan and P. De) in the fifteenth Workshop on Information Technologies and Systems (2005) for the paper “A Mechanism for Allocating Objects in a Network of Symmetric Caches”
- Honorable Mention in 2005 Junior Faculty Interest Group Competition (with Y. Li) for the paper “Minimizing Flow Disruption due to Network Maintenance”
- Outstanding Core MBA Teaching Recognition, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2014, 2015, 2016, 2017
- Outstanding Elective MBA Teaching Recognition, 2014, 2015, 2016, 2017
- INFORMS Computing Society Prize (with N. V. Sahinidis), 2004 for research excellence in the interface between Computer Science and Operations Research
- Jay N. Ross Young Faculty Scholar Award, 2002–2003, Purdue University
- American Institute of Chemical Engineers (AIChE) Computers and Systems Technology (CAST) Director’s Award, 1999. Best Poster: Novel Molecular Designs Via Global Optimization
- CSE Fellow, Computational Science & Engineering, University of Illinois, Jan 1999–May 1999
- Teaching Fellow, Department of Mechanical and Industrial Engineering, University of Illinois, Aug 1998–May 1999
- Tata Consultancy Services award for *best project* in the areas of CAD/CAM, Robotics & Automation, July 1993

Grants

- PI, National Science Foundation, Collaborative Research: Novel Relaxations for Cardinality-Constrained Optimization Problems with Applications in Network Interdiction and Data Analysis, \$396,424, August 2017–July 2021
- Co-PI, Optimization of Oil/Gas Processes and Process Flowsheets, Exxon Mobil Research Company, \$638,685, March 2017–February 2020
- Co-PI, Development of method and algorithms to identify easily implementable energy efficient low-cost multicomponent distillation column trains with energy savings for wide number of separations, \$1,151,707 (Department of Energy Share: \$900,000, Purdue Cost Share: \$251,707) December 2014–December 2017
- Co-PI, Multicomponent Distillation Configurations, Eastman Chemical Company, \$45,000
- PI, National Science Foundation, Collaborative Research: Novel Tighter Relaxations for Complementarity Constraints with Applications to Nonlinear and Bilevel Programming, \$226,172, September 2012–August 2015
- Co-PI, National Science Foundation, CSR: Medium: Collaborative Research: Architecting Performance Sensitive Applications for the Cloud, \$400,000, August 2012–July 2016
- PI, National Science Foundation, Collaborative Research: Generating Strong Cuts for Nonlinear Programs Via Orthogonal Disjunctions and Lifting Techniques, \$204,171, July 2009–June 2013
- Amazon.com, \$25,000 (with Prof. K. Tang), Evidence Based Solutions for Global Fulfillment Network, June 2007

- Huntingburg OFS project under Global Supply Chain Management Initiative, June 2006
- Purdue Research Foundation Summer Faculty Grant, Relaxation Hierarchies and Continuous Lifting in Deterministic Global Optimization, 2006
- Purdue Research Foundation Summer Faculty Grant, Disjunctive Relaxations of Non-convex Nonlinear Programs, 2005

Professional Memberships

- Member of Institute of Operations Research and Management Science since 1996
- Member of Mathematical Programming/Optimization Society 2003-2006, 2015-present
- Web Administrator of Optimization Section of Institute for Operations Research and Management Science 1996-2001

Professional Activities

- Editorial Boards:
Associate Editor, *Journal of Global Optimization*, Technical Editor, *Mathematical Programming Computation*
- Optimization Society Student Paper Prize, Chair, 2015 and Member 2016
- Co-director, Business Information and Analytics Center, 2016-till date
- Co-director, MS in Business Analytics and Information Management, 2015-till date
- Krannert delegate for Associate Deans for Research Meetings, 2015-till date
- Reviewer for Big Ideas Challenge. Purdue University, 2016-2017
- Contributing Author for Global Optimization, NEOS Wiki 2011-present
- Cluster Chair for Global Optimization, International Symposium on Mathematical Programming, 2015
- Program Committee, 2011 INFORMS Midwest Meeting, 2011
- Program Committee, 2009 CPAIOR International Meeting, Pittsburgh, 2009
- Organized the Global Optimization Cluster for ICCOPT-MOPTA, Hamilton, 2007
- Organized the Global Optimization Cluster for INFORMS, Pittsburgh, 2006
- Organized the Global Optimization Cluster for INFORMS, San Francisco, 2005
- Vice Chair of Global Optimization, INFORMS Optimization Society, October 2004 to November 2006
- Refereed papers for *Computers and Chemical Engineering*, *Computational Optimization and Applications*, *Discrete Optimization*, *European Journal of Operational Research*, *International Journal of Operations and Quantitative Management*, *International Journal of Systems Science*, *Journal of Global Optimization*, *Journal of Industrial and Management Optimization*, *Journal of Optimization Theory and Applications*, *Management Science*, *Mathematical Programming*, *Operations Research*, *Operations Research Letters*, *Optimization and Engineering*, *Optimization Methods and Software*, and *SIAM Journal on Optimization*.
- Developed and Maintained Web Interface for BARON, October 1999–May 2001
- Organized Paper Sessions in INFORMS, Miami, 2001, INFORMS, San Jose, 2002, INFORMS Optimization Society Meeting, Atlanta, 2008, and INFORMS, Washington DC, 2008.
