January is National Mentoring Month

Mentors, thank you for your commitment to the Pharmacy Mentors Program. Please continue to meet with your pre-pharmacy student at least once a month.

If you’re looking for free or inexpensive activities, check out the Purdue Student Union Board’s activities calendar.

http://www.union.purdue.edu/HTML/PSUB/

The admissions committee will soon be sending out interview letters to program applicants. Please be supportive of your mentee during this time, regardless of the contents of their letter.

Remember: If a student is struggling in their coursework or experiencing any type of physical, mental, or emotional issues, please consult with an advisor as soon as possible. We have numerous resources to help students with such issues.

What should we talk about?

getting the most out of mentorship

Remember, this experience is designed to provide guidance to the pre-pharmacy student as they complete coursework and seek admission to the professional program. Discuss:

- how classes are going: what classes they like or may be struggling with
- involvement in pharmacy and other organizations
- rumors about application to the professional program
- suggested electives
- how are the feeling about their continuation in pre-pharmacy
- thoughts about a “back-up” plan

Save the Date!

Wallyball  
[Feb 24 7-9pm]  
Professional and pre-pharmacy students are invited to the RSC raquetball courts for wallyball!

Student Panel
