## Instructors

**Homer and Cristina** started their tango obsession long before they met each other. Each with over 10 years of experience emphasizing a fusion of social tango ideologies. As teachers they are committed to creating a positive class environment where small epiphanies can & do occur in their students. It has been said, on more than one occasion, that few dancing couples improvise with such skill, personality, and fluidity of movement

**Korey Ireland** is a professional composer turned tango-addict, he brings a lifetime of musical experience and an unquenchable thirst for tango to his teaching. **Mila Vigdorova** danced classic, folk, jazz since she was 5 years old. She discovered tango in 2000. In 2003 she opened her tango school in Moscow and worked successfully for 3 years, teaching, organizing workshops and staging tango shows. In January 2005 **Korey** met **Mila** in El Corte and they are continuing this tango adventure as a duo.
