Web Portfolio

Overview
For this assignment, you will create a website that will showcase your ENGL 106 work from throughout the semester. Every paper you write over the semester is required to be linked to this website. Plus, you will be asked to add extras (i.e. research materials, prewriting, pictures, videos, etc.). Creativity and relevance as well as adhering to the principles of visual design will be the most important factors in this assignment, which is made up of two parts due on two different dates.

Part One: The first part consists of the introduction page to your website. You are required to design this page to be visually appealing and representative of your work in this class. Consider color, placement, contrast, etc.

Part Two: The second part of the assignment requires you to complete the website by adding the previous assignments (humor paper, review, annotated bibliography, final paper) and any extras you choose to include.

Goals for this Assignment
- To learn to successfully build a website using Dreamweaver.
- To design a visually appealing introduction page.
- To relate visual design to the overall theme of your ENGL 106 work.
- To organize a website including links, pictures, text, etc.
- To represent what you are studying and how it relates to you.

Requirements
Part One:
- An introduction page that adheres to the principles of visual design.
- An overall theme that applies to your work in ENGL 106.

Part Two:
- Links to all of your ENGL 106 assignments.
- Extras (i.e. research materials, prewriting, pictures, videos, etc.)
