Postdoctoral Research Scientist Position in Climate Dynamics at Purdue University

The Department of Earth, Atmospheric, and Planetary Sciences of Purdue University invites applications for a Postdoctoral Research Scientist position in the area of atmospheric general circulation, climate dynamics and climate change. The successful applicant will work under the supervision of Dr. Yutian Wu.

The successful candidate should hold a Ph.D. degree in climate science or a related field by the time of employment. The ideal candidate should be skilled with numerical modeling and quantitative analysis of models and observational data. Appointments will be for two years; renewal beyond two years is contingent on funding.

Applications including a CV, research statement, and names and contact information of three referees to Yutian Wu (wu640@purdue.edu). Review of applications will begin on October 1st 2014, but the position will remain open until filled.
