The Big Questions: 
Introduction to Philosophy 
Philosophy 110 – CRN 15942 
Fall Term 2022 – Purdue University 
Instructor: Daniel Kelly 
Teaching Assistants: Sina Azizi, Jaakko Jekunen, and Frankie Knuckles

https://purdue.brightspace.com/d2l/home/608173

Syllabus

1. Course Description

There are two main goals of this course. The first is to introduce students to the Western philosophical tradition, its defining themes, and the way those have been developed by major historical and contemporary figures. Such themes include religion (does God exist? is belief in God rational?); perception and its relations to knowledge, reality, and the external world (could we tell if we were living in a computer simulation? what is reality made of?); the nature of personal identity and the self (what makes me, me, now and throughout the course of my life? is there an afterlife, and will I be there?); free will (do the laws of physics determine everything that happens, or do I choose my own pathway through life?); morality (are right and wrong objective, or relative, or what?); and the connection between minds and bodies (does the brain produce consciousness? could a computer become self-aware?)

The second goal is to provide students with the tools to refine their thinking, evaluate evidence, articulate their own views, and assess the arguments of others. In a world increasingly beset by fake news, algorithm-driven polarization, and general misinformation, these critical reasoning skills are more crucial than ever. This course will give students many opportunities to hone them on Big Picture topics, too, sharpening their wits on Great Ideas and thinking systematically about Meaning of Life type questions. Together all of this will help students do the most important thing: TurboCharge their own Bullshit Detector.

2. Class Meetings

Class lectures meet Tuesdays and Thursdays from 5:30pm – 6:20pm in CL50 224. Recitation sections are on Fridays in rooms on first floor of Beering Hall:

3. Office Hours and Contact Information
4. Course Requirements and Grading

Final course grades will be assigned on the standard 0-100 point grading scale:

100-98: A+
97-93: A
92-90: A-
89-87: B+
86-83: B
82-80: B-
79-77: C+
76-73: C
72-70: C-
69-67: D+
66-63: D
62-60: D-
59-0: F

Final course grades will be determined by the following assignments:

1) 1 Midterm Exam (in class) 10%
2) 5 Quizzes (Brightspace) 30%
3) 5 Outline Exercises on Core Readings 30%
4) 5 Short Position Papers on Contemporary Readings 30%

**Attendance:** See Attendance Policy and Attendance Sign Up Sheet for details. Both of these documents are also available on the course Brightspace page.
Quizzes

- These will be 20 questions each.
- They will be some combination of variations on the True/False and Multiple Choice type questions that BrightSpace allows us to ask. Individual questions can be worth more or less points, though.
- They will cover and test your understanding of material from the readings, lectures, and lecture notes.
- I’ll open each one on BrightSpace on the Friday before the Monday it is due.
- You’ll have an hour (60 minutes) to complete the quiz once you begin.

Outline Exercises of Core Readings

- These will be graded out of 10 points.
- For each chapter in the course, you will choose one of the assigned Core Readings that we have not yet talked about in lecture.
- There are Two Steps to these exercises. The main one is writing up a one-page, single spaced, outline of a paper, pulling out its “bird’s eye view” structure—sections, main claims of sections, basic arguments offered in support of those claims. Hence the name. But wait, there’s more.
  - How to do it? Two Steps:
    - **Step 1:** Create a one-page outline of the reading using the standard capital Roman numerals>capital letters>Arabic numerals>small letters>small Roman numerals system to mark different “levels” of indentation in your outline.
      - Most word processors will do this kind of indentation formatting and number/lettering for you automatically.
      - If you’ve never done an outline before:
        - This is a good helpful overview: [https://libguides.gatech.edu/c.php?g=54271&p=350394](https://libguides.gatech.edu/c.php?g=54271&p=350394)
        - You can also look at this for a helpful model: [https://web.ics.purdue.edu/~drkelly/KellyOutlineIsmaelOnDennett2018.pdf](https://web.ics.purdue.edu/~drkelly/KellyOutlineIsmaelOnDennett2018.pdf)
      - You can also see the outlined lecture notes I will post online for (more detailed and elaborated examples of) what you’ll be aiming at.
    - **Step 2:** Then on a second page in the same document, separate from your outline, do these three things:
      1) Formulate in your own words the main question you take the paper to be addressing.
      2) Identify a sentence or two from the paper (i.e. quoted verbatim from the text itself) that best states the answer the author gives to the main question you just identified and formulated. This will be usually also be the thesis of the paper, its main point, its Take Home Message.
      3) Finally, pose a question of your own that the paper provoked.
  - Comments:
    - The outline part of this, Step 1, should fill a full page.
    - But also try to keep that outline part to just a single page. Though you can spill over a little if need be; you’ll get docked points for an outline that is too short, but not for one that is a little
too long. Why? Because being concise and getting better able to distinguish the forest through the trees, the signal through the noise, is a large part of the point of the exercise.

- **Why?** *(Learning Outcome Alert!)* Here are the skills you are working on:
  - To **synthesize** a large number of ideas, information, and often dense prose, then organize it, think systematically about what’s important and what’s peripheral.
  - To develop the ability to identify and pull out the **thesis** of an article, and to distinguish the main claims and most important premises from the mere opinions, editorial asides, or ancillary supporting details.
  - To be able to **summarize an argument** as a whole, and thus to conceptualize, at a general level, the line of reasoning that an article is putting forth, and to understand it in its **entirety** as a single thing.
  - Then, once you’ve understood the line of reasoning on its own terms, to take the time and effort to **formulate an explicit question** about it:
    - This is an important first step in **developing your own sophisticated opinion** about it.
    - Articulating questions helps to redirect and focus attention on what you think about the issue and argument, once you have come to grips with what the author thinks about it.
    - All of this helps you to not just organize, synthesize, and comprehend a body of information, but to also **evaluate** it, to **make a judgment** about it.
    - All of these elements make up one of those **Big Picture abilities** you can work on, hone, sharpen, and refine with practice, and it is one that will benefit you in any domain and for the rest of your life. This is getting in the kind of repetitions that will help with the turbocharging of your bullshit detector stuff, right here.

**Position Papers on Contemporary Readings**

- These will be graded out of 10 points.
- Choose one of Contemporary Readings from the unit, and read it (duh).
- Write a short essay about that. Here is the format it should take:
  - In the first paragraph:
    - Begin by stating the thesis or main claim of the Contemporary Reading you choose; this can be a verbatim quotation from the reading, or you can express it in your own words.
    - Then articulate the argument—the reasons—the author of the Contemporary Reading gives in support of their thesis or main claim.
  - Next, state your position on the thesis in a single sentence. You can agree, disagree, kind of agree, but tell me where you stand on the issue right up front. Then, the rest of the essay is you defending your position, providing reasons for it, explaining where you think the author’s argument goes wrong, imagining what a skeptic who isn’t convinced by your position might say, and responding to them, trying to persuade them you’re right, etc.
- Ideal length here is between about 800 –1000 words, roughly 2-3 pages. What you turn in shouldn’t be much less, but feel free to go over if you’ve feeling particularly engaged by the reading.
• A central aim of these exercises is to help you engage with the readings more, and to give you a forum to work out what you think about some of the ideas therein. And so: feel free/encouraged to write in the first person.
• Do not just summarize the Contemporary Reading. Mere summaries will not receive full credit for the assignment.
• You do not need to bring in any external sources. You may if you want, however. And if you do, be sure to cite them.
• These are a less structured than the outlines, so you have some leeway on what you choose to write about here. That said:
  1) Some Things You Should Definitely Do: Your Position Paper should be on topic, which means it should be about the subject matter and arguments made in the Contemporary Reading you choose. It should be proofread, so that it contains grammatical sentences, correct punctuation and spelling, etc. It should clearly express you own point of view about some of the main claims made in the reading, and (this is important!) it should give reasons supporting that point of view. Take a position! Defend it! Make an argument!
  2) Some Things You Should Avoid Doing
    ▪ Summarizing the whole paper
    ▪ Free associating some random things that the paper made you think of
    ▪ “Ever since the dawn of time humans have wondered…”
      ▪ Please no
      ▪ Stuff like this doesn’t add anything, but it definitely puts professors and graders in a sour state of mind when they begin reading, largely because it’s über-cliché but also because it feels like padding
    ▪ Asking rhetorical questions
      ▪ When tempted to ask one, do this instead: write out what you take to be the obviously correct answer in the form of a declarative statement, and then explicitly state the reasons you think that statement is obviously correct. Rhetorical questions themselves don’t make good or convincing arguments. Moreover, when you are in a philosophical debate, the answer you take to be obviously correct will often be rejected by those arguing the other side of the issue.
  3) Some Things You Can Do
    ▪ Develop and explain a connection to the issues and key questions we talked about in lectures and in the Core Readings from any unit in the class. The positions.
    ▪ Once you have decided where you stand w/r/t to the position the author defends, or w/r/t some key point or points they make, you can proceed by
      ▪ If you disagree, raise and develop your own skeptical objection to the what you have decided to focus on. But also! Consider what the author would say in response to your objection, and say why you would not find that response convincing
      ▪ If you agree, articulate and consider the best skeptical objection you can think of, and say why you do not find that skeptical objection convincing
    ▪ Explicitly draw out and explore an implication of the author’s position that they themselves did not spell out. Assess that implication: what do you think about it? Why?
• The Learning Outcomes here are similar to those for the Outline Exercise, but with a couple of differences in emphasis:
These provide more of an opportunity for students to develop their own analytic abilities, and to express the results in prose and essay form. This, in turn, also gives students a little bit more creative leeway on how and what they can philosophize about.

These are also designed to introduce students to how the types of venerable philosophical concepts and questions we will read about in the Core Readings manifest in contemporary settings and animate discussions about much more current debates.

5. Course Policies

**Readings:** Do them; it will pay off. A recent book’s introduction says it well: “Patience is a primary virtue in philosophy. Genuine understanding is a rare and valuable commodity, not to be obtained on the cheap. One cannot reap philosophy’s rewards breathlessly, or by looking for the intellectual equivalents of sound bites. Very large claims are at issue here, claims that bear on understanding some of the matters most important to being human. Understanding requires investing time, close reading, and reflection.”

**Lectures:** Come to them; it will pay off. I try to make them not boring. Also, I will try to begin on time, and will usually go right up until the end of the class session. Please come on time. Do not pack up your materials until class has been dismissed. Talking during lectures will not be tolerated. Repeat offenders will be asked to leave.

**COVID Caveat:** If you’ve got it, or are in quarantine, stay home, obviously. Also, lectures will be recorded via BoilerCast, but will not be made generally available. I will issue links to lecture recordings on a case-by-case basis, for students who miss them due to documented illness, forced quarantine, etc. Email me if/when you qualify to get a link to the lecture(s) you missed. Also, if you sign up for the monitored attendance policy and have a documented illness, those absences will be excused and will not count against your

**Screens:** Bold proposal: dare to give yourself a break from the internet and free will sapping technology of distraction for 50 minutes! I would prefer that you exercise enough self-restraint to keep from texting or looking at your smartphone for the 50 minutes that class is in session, but since a formal prohibition would be too difficult to enforce, this remains a preference. Use of laptop computers and iPads during lectures will not be allowed, however. There’s a very good case for this. Although I am not inflexible: talk to me if you have special needs or circumstances.

**Attendance:** See Attendance Policy on Brighspace page for details on the monitored attendance option.

**In section participation:** I realize that not everyone is equally outgoing or talkative in class. However, participation in class discussion almost always helps in learning philosophy, and the quality of the discussion depends on everyone collectively. So while we highly encourage it, we will not penalize students simply for not speaking up. That said, a consistent record of engagement and participation always helps a student’s final grade if it is on a borderline at the end of the semester. On the other hand, students who have not been present and engaged throughout the semester will not get the benefit of the doubt in similar borderline cases, and in particularly egregious cases will have their grades dragged down.
**Emergencies:** (See end of Syllabus for full Purdue attachment on Emergency Procedures and COVID guidelines). In the event of a major campus emergency, course requirements, deadlines and grading percentages are subject to changes that may be necessitated by a revised semester calendar or other circumstances. Information about emergencies changes in the course can be gotten by contacting either instructor via email or phone, or by consulting the course website (see above for that information). Purdue’s Emergency Procedures Handbook and other important emergency planning information is available online at

[http://www.purdue.edu/emergency_preparedness/](http://www.purdue.edu/emergency_preparedness/)

To obtain updates regarding an ongoing emergency, and to sign up for Purdue Alert text messages, go to

[http://www.purdue.edu/emergency/](http://www.purdue.edu/emergency/)

For the full document of the STEW Building Emergency Plan

[https://www.purdue.edu/ehps/emergency_preparedness/bep/STEW-bep.html](https://www.purdue.edu/ehps/emergency_preparedness/bep/STEW-bep.html)

**Plagiarism:** With the advent of the internet, plagiarism has become an increasingly serious problem at universities around the country, particularly in classes like this one, where papers determine a substantial part of the grade.

In order to avoid plagiarizing from a source, both **direct quotations and paraphrases or summaries** of material found in traditional print media or on the internet must be acknowledged. If you have any questions about how this definition will be interpreted, please do not hesitate to discuss the matter with me or your TA.

Plagiarism and cheating on exams undermines the integrity of the academic community. When undetected, it gives the perpetrator an unfair advantage over students who are graded on the basis of their own work. In this class we will do our best to detect plagiarism and cheating. Students who are aware of violations by others should bring this to my attention. This is the right thing to do. It is also in your own self-interest.

There will be zero tolerance for plagiarism in this course. Plagiarized papers will receive a 0, the student will automatically fail the course, and their name will be handed over to the university authorities. For more on the Purdue University policy on plagiarism, see the following websites:

[http://www.purdue.edu/univregs/pages/stu_conduct/stu_regulations.html](http://www.purdue.edu/univregs/pages/stu_conduct/stu_regulations.html)

[https://www.purdue.edu/innovativelearning/teaching-remotely/integrity.aspx](https://www.purdue.edu/innovativelearning/teaching-remotely/integrity.aspx)

With each assignment, a handful of students may be selected at random to submit their work to iThenticate, an online service that maintains an enormous database of papers that it uses to check for instances of plagiarism.

**Nondiscrimination Statement:** Purdue University is committed to maintaining a community which recognizes and values the inherent worth and dignity of every person; fosters tolerance, sensitivity, understanding, and mutual respect among its members; and encourages each individual to strive to reach his or her own potential. In pursuit of its goal of academic excellence, the University seeks to develop and nurture diversity. The University
believes that diversity among its many members strengthens the institution, stimulates creativity, promotes the exchange of ideas, and enriches campus life. Purdue’s nondiscrimination policy can be found at http://www.purdue.edu/purdue/ea_eou_statement.html.

**Students with disabilities:** Purdue University strives to make learning experiences as accessible as possible. If you anticipate or experience physical or academic barriers based on disability, you are welcome to let me know so that we can discuss options. You are also encouraged to contact the Disability Resource Center at: drc@purdue.edu, by phone: 765-494-1247, or at the website: https://www.purdue.edu/drc/students/index.html

**External Sources:** Using sources not listed on the syllabus in researching and writing papers is fine, as long as they are both to the point, and a re properly cited. And at all times, when in doubt, *cite your sources!* It is the best way to avoid being accused of plagiarism.

This is probably the best place to make this point, too: in general, Wikipedia is great! Even in philosophy, it can be useful for getting a very broad grasp of positions and debates. The problem is that it can be uneven, too. Especially with philosophical topics, when it gets into details, it can get a little sketchy – convoluted, misinformed, and sometimes simply wrong. If you wish to consult online resources, I suggest you use some of the other, much better sites. The best of these is the Stanford Encyclopedia of Philosophy, but others are useful as well:

- Stanford Encyclopedia of Philosophy http://plato.stanford.edu/
- The Internet Encyclopedia of Philosophy http://www.iep.utm.edu/

6. Brightspace

All information, readings, assignments, grades, and announcements for the course will be through the course Brightspace page: https://purdue.brightspace.com/d2l/home/608173

7. Assignment and Exam Schedule

All assignments will be submitted electronically via Brightspace. They will **almost** all be due on Mondays (see #6 below for the exception), and all will by the end of the day (11:59pm) on the day they are due. If a student misses that deadline, they have **one week** to turn in the assignment **late**, and it will only get half credit. After that week, the BrightSpace portal will close, the assignment will not be accepted, and the student will receive a 0.

**Introduction and Philosophy of Religion**

1) Monday 8/29 Outline Exercise #1  
2) Monday 9/5 Quiz #1 
3) Monday 9/12 Position Paper #1

**Epistemology: Knowledge, Reality, and the External World**

4) Monday 9/26 Outline Exercise #2  
5) Monday 10/3 Quiz #2

6) **Sunday 10/16** Position Paper #2

**Ethics**

7) Monday 10/17 Outline Exercise #3  
8) Monday 10/24 Quiz #3

**Fall Break Monday 10/10 and Tuesday 10/11**
Free Will, Moral Responsibility, and Determinism

8. Topics and Readings

Here is a tentative schedule of topics and readings. Depending how fast we are going, amendments and alterations will be announced in class as we go, and the readings for the next class will always be announced in lecture and listed on the lecture outlines published on the course Brightspace page. Make sure you check the course Brightspace page on a fairly regular basis.

Unit 1: Introduction and Philosophy of Religion: Weeks 1 – 4 (Beginning 8/23):

Core Readings
- Russell, *The Value of Philosophy*
- Plato, *Apology*
- Aquinas, *The Summa Theologica*
- Anselm, *Proslogium, Or Discourse on the Existence of God*
- Paley, *Natural Theology*
- Hume 1st reading, *Dialogues Concerning Natural Religion*
- Dennett, *Show Me the Science*
- Hume 2nd reading, *Dialogues Concerning Natural Religion*
- Mackie, *Free Will and the Problem of Evil*
  - You may NOT do an Outline Exercise based on this Core Reading
- Pascal, *Notes on Natural Religion and Other Subjects*
- James, *The Will to Believe*
- Alvin Plantinga, *Interview on The Sensus Divinitatus*

Contemporary Readings
- Draper, *Panpsychotheism*
- Evans, *Perennial Philosophy*
- Moberger, *Pseudophilosophy Encourages Confused, Self-Indulgent Thinking*
- Schneider, *How Much Does It Matter Whether God Exists?*
- Wolfson, *Hearing the Voice of God*

“Midterm” Exam: in class (usual time and place of lectures), Tuesday 9/20
No Lecture: Thursday 9/22
No Sections: Friday 9/23

Unit 2: Epistemology: Knowledge, Reality, and the External World: Weeks 5-7 (Beginning 9/27)
Core Readings
- Descartes 1st reading, Meditations on First Philosophy
- Locke, An Essay Concerning Human Understanding
- Berkeley, Three Dialogues Between Hylas and Philonous
- Hume, An Inquiry Concerning Human Understanding

Contemporary Readings
- Levy, Why No-Platforming is Sometimes a Justified Position
- Nguyen, Escape the Echo Chamber
- Paul, Transformative Experiences (excerpts on induction and how choosing to becoming a parent is like choosing to becoming a vampire)
- Rothman, Why Is It So Hard to Be Rational
- Strevens, Keep Science Irrational

Fall Break: Monday 10/11 or Tuesday 10/12 (No Lecture)

Unit 3: Ethics: Weeks 8-10 (Beginning 10/14)
- Plato Euthyphro
- Rachels Does Morality Depend on Religion?
- Antony, Good Minus God
- Rachels, Subjectivism in Ethics
- Rachels, The Challenge of Cultural Relativism
- Mill, Utilitarianism
- Le Guin, The Ones Who Walk Away From Omelas

Contemporary Readings
- Coates, The Case for Reparations
- Kukla, Sex Talks: The Language of Sexual Negotiation and the Ethics of Consent
- Riggle, High Five! The Ethics of Awesomeness
- Rothman, The Inequality Conundrum

Unit 4: Free Will, Moral Responsibility, and Determinism: Weeks 11-13 (Beginning 11/2)
Core Readings
- Ismael, Fate’s Scales, Quivering
- James, The Dilemma of Determinism

Contemporary Readings
- Chiang, What’s Expected of Us
- Roberts, The Radical Moral Implications of Luck in Human Life
- Roskies, Neuroscientific Challenges to Free Will and Responsibility
- Ross, The Elephant as a Person

Thanksgiving Break: Thursday 11/25 and Friday 11/26 (No Lecture or Sections W/Th/F)

Core Readings
- Perry, A Dialogue on Personal Identity and Immortality
Contemporary Readings
- Aviv, *How A Young Woman Lost Her Identity*
- Renner, *How Social Media Shapes Our Identity*
- Schechter, *What Can We Learn About Respect and Identity From ‘Plurals’?*
- Witt, *Gender Essences*

Unit 6: The Mind/Body Problem: Week 16 (Beginning 12/7, time permitting)
Core Readings
- Nagel, *What is it Like to be a Bat?*

Contemporary Readings
- Dennett, *Where Am I?*
- Ravindran, *A Circus of the Senses*
- Schulz, *The Self in Self-Help*
- Vold, *Are ‘You’ Just Inside Your Skin or Is Your Smartphone Part of You?*

No Final Exam – You Are Welcome
COVID RELEVANT INFORMATION

University General Attendance Guidelines:

“Students are expected to attend all classes in-person unless they are ill or otherwise unable to attend class. If they feel ill, have any symptoms associated with COVID-19, or suspect they have been exposed to the virus, students should stay home and contact the Protect Purdue Health Center (496-INFO).

In the current context of COVID-19, in-person attendance cannot be a factor in the final grades. However, timely completion of alternative assessments can certainly be part of the final grade. Students need to inform the instructor of any conflict that can be anticipated and will affect the timely submission of an assignment or the ability to take an exam.

Classroom engagement is extremely important and associated with your overall success in the course. The importance and value of course engagement and ways in which you can engage with the course content even if you are in quarantine or isolation, will be discussed at the beginning of the semester. Student survey data from Fall 2020 emphasized students’ views of in-person course opportunities as critical to their learning, engagement with faculty/TAs, and ability to interact with peers.

Only the instructor can excuse a student from a course requirement or responsibility. When conflicts can be anticipated, such as for many University-sponsored activities and religious observations, the student should inform the instructor of the situation as far in advance as possible. For unanticipated or emergency conflicts, when advance notification to an instructor is not possible, the student should contact the instructor/instructional team as soon as possible by email, through Brightspace, or by phone. In cases of bereavement, quarantine, or isolation, the student or the student’s representative should contact the Office of the Dean of Students via email or phone at 765-494-1747. Our course Brightspace includes a link to the Dean of Students under ‘Campus Resources.’”

Academic Guidance in the Event a Student is Quarantined/Isolated:

“If you must quarantine or isolate at any point in time during the semester, please reach out to me via email so that we can communicate about how you can continue to learn remotely. Work with the Protect Purdue Health Center (PPHC) to get documentation and support, including access to an Academic Case Manager who can provide you with general guidelines/resources around communicating with your instructors, be available for academic support, and offer suggestions for how to be successful when learning remotely. Your Academic Case Manager can be reached at acmq@purdue.edu. Importantly, if you find yourself too sick to progress in the course, notify your academic case manager and notify me via email or Brightspace. We will make arrangements based on your particular situation.”

Protect Purdue Classroom Guidelines
“The Protect Purdue Plan, which includes the Protect Purdue Pledge, is campus policy and as such all members of the Purdue community must comply with the required health and safety guidelines. Required behaviors in this class include: staying home and contacting the Protect Purdue Health Center (496-INFO) if you feel ill or know you have been exposed to the virus, properly wearing a mask in classrooms and campus building, at all times (e.g., mask covers nose and mouth, no eating/drinking in the classroom), disinfecting desk/workspace before and after use, maintaining appropriate social distancing with peers and instructors (including when entering/exiting classrooms), refraining from moving furniture, avoiding shared use of personal items, maintaining robust hygiene (e.g., handwashing, disposal of tissues) prior to, during and after class, and following all safety directions from the instructor.

Students who are not engaging in these behaviors (e.g., wearing a mask) will be offered the opportunity to comply. If non-compliance continues, possible results include instructors asking the student to leave class and instructors dismissing the whole class. Students who do not comply with the required health behaviors are violating the University Code of Conduct and will be reported to the Dean of Students Office with sanctions ranging from educational requirements to dismissal from the university.

Any student who has substantial reason to believe that another person in a campus room (e.g., classroom) is threatening the safety of others by not complying (e.g., not properly wearing a mask) may leave the room without consequence. The student is encouraged to report the behavior to and discuss the next steps with their instructor. Students also have the option of reporting the behavior to the Office of the Student Rights and Responsibilities. See also Purdue University Bill of Student Rights.”
EMERGENCY PREPAREDNESS SYLLABUS ATTACHMENT

EMERGENCY NOTIFICATION PROCEDURES are based on a simple concept – if you hear a fire alarm inside, proceed outside. If you hear a siren outside, proceed inside.

- **Indoor Fire Alarms** mean to stop class or research and immediately **evacuate** the building.

  Proceed to your Emergency Assembly Area away from building doors. **Remain outside** until police, fire, or other emergency response personnel provide additional guidance or tell you it is safe to leave.

- **All Hazards Outdoor Emergency Warning Sirens** mean to immediately seek shelter (**Shelter in Place**) in a safe location within the closest building.

  “Shelter in place” means seeking immediate shelter inside a building or University residence. This course of action may need to be taken during a tornado, a civil disturbance including a shooting or release of hazardous materials in the outside air. Once safely inside, find out more details about the emergency*. **Remain in place** until police, fire, or other emergency response personnel provide additional guidance or tell you it is safe to leave.

*In both cases, you should seek additional clarifying information by all means possible…Purdue Home page, email alert, TV, radio, etc...review the Purdue Emergency Warning Notification System multi-communication layers at [http://www.purdue.edu/ehps/emergency_preparedness/warning-system.html](http://www.purdue.edu/ehps/emergency_preparedness/warning-system.html)

EMERGENCY RESPONSE PROCEDURES:

- Review the **Emergency Procedures Guidelines**
